INFORMATION DISCLOSURE STATEMENT

Sir:

Under the provisions of 37 C.F.R. 1.97 through 1.99 and pursuant to applicant's duty of disclosure under 37 C.F.R. 1.56, applicant respectfully brings the following documents, which are cited in a Japanese Office Action and listed on the attached form PTO-1449, to the attention of the Examiner in charge of the above-identified application. Copies of the listed documents are provided herewith for the convenience of the Examiner.

This citation does not constitute an admission that the references are relevant or material to the claims. They are only cited as constituting related art of which the applicant is aware.

In compliance with the requirements of 37 C.F.R. §1.98 (a)(3), as a concise statement of relevance, as it is presently understood by the individual designated in 35 U.S.C. §1.56(c) most knowledgeable about the content of the information, the undersigned attorney of record submits a translation of a portion of the official action by a foreign examiner in which the references were cited. The relevance to the pending U.S. Patent application is that the references were cited in a foreign patent application on the same subject matter. However, no independent analysis of the reference, the accuracy of the statement of the foreign examiner or the claims of the foreign application under the laws of that country or the United States relative to the same subject matter claimed in the present application has been made; the present understanding of the contents thereof by the undersigned being based on the translation of the foreign examiner's comments

submitted herewith. It is respectfully requested that the listed references be formally made of record in the application. Please charge any deficiencies in fees and credit any overpayment of fees to Attorney's Deposit Account No. 50-2041

Respectfully submitted,

Michael E. Whitham

Record (See the Reference Citation List to obtain the citation)

Claims 1, 3-5 and 14-17

Citations 1-3

Remarks:

As recorded in Citations 1-3, the assessment of a fee for each bandwidth used by a user would be commonly applied technology to one skilled in the art.

In addition, determining the maximum communication rate is also something which is generally accomplished by one skilled in the art.

There is no recognized exceptional technical difference between the known and commonly applied technology represented in Citations 1-3 and the invention relating to Claims 1, 3-5 and 14-17 of the present application.

In the event that further reasons for rejection are discovered in the future, you will be notified of such reasons.
